(DRAFT)

(Date)

Mr. John T. Petras,
Secretary,
Board of Health,
Manville, N.J.

Dear Sir:

You will no doubt desire to have in your file an acknowledgment of your letter of April 19th regarding local atmospheric conditions.

This matter having already been discussed between us, there is nothing further I can add at this time except that it is receiving and will continue to receive our attention. We are as anxious as you to avoid a situation which might necessitate the removal from Manville of any of our manufacturing operations.

Very truly yours,

PRIVILEGED
J-M 83
