January 5th, 1955

H. M. Jackson

Willie F. Howard
[illegible]-1961

In accordance with Standard Practices 8-5b we are enclosing the following for your information:

a. Our records contain no information regarding any pre-employment exposure.

b. J-M Work History and exposure with indications of departments and jobs.

c. Dr. Fuller's Medical Summary including employee's medical history and medical records while working for J-M.

d. Chest Roentgenogram.

e. Plant Physician's diagnosis is included in the second paragraph of his summary dated January 24th.

You will note on employee's work history that I expressed the opinion that the possibility is slight that employee could be suffering from any occupational disease resulting from such a short exposure in employment.

You will note also, in advice to our attorneys, that we are denying responsibility for any industrial disease contracted while in the employ of Johns-Manville.

Please advise your findings and if you require further information, we will gladly comply.

Benjamin F. Stanton
