Internal Correspondence

To Tom Bodnarchuk (Manville)

Date February 19, 1982

From Bill Clayton (2-30) WM

RECEIVED
J-M '83

Copies: F/C

Subject SAMUEL RUBBICO
OUR FILE #18-1766

The medical report prepared by Dr. Tucker dated June 12, 1981, does not suit our purposes. It would have been far preferable to have Dr. Tucker simply address himself to pulmonary findings and avoid any dissertation related to cancer of the colon. Perhaps, Steve can persuade Dr. Tucker to rewrite his report and eliminate all references to the colon cancer. Please advise.

Bill,

I telephoned Dr. Tucker to review this matter with him and he will discuss this with you directly via telephone call. I'm sure he will cooperate with your suggestion.

Tom
