Dear V. Brown:

There are two items in today's CAPITOL DAILY which you may find interesting. They are:

"ASBESTOSIS. Study of asbestosis in the asbestos textile industry. 1938. 126 p. il. (Public Health Bulletin 241.) 20¢.

"The objectives of this study were threefold: (1) to make a medical study of the effects of long-continued inhalation of asbestos dust on the human body; (2) to identify the manufacturing processes that create dust and to recommend practices and, when necessary, equipment that will reduce the dust exposure of workers; and (3) to find out what concentration of asbestos dust can be tolerated without injury to health."

"NATIONAL LABOR RELATIONS BOARD. Decisions and orders of the National Labor Relations Board, v. 3, July 1, 1937-November 1, 1937. 1938. 993 p. (National Labor Relations Board) Cloth, $1.50."

Sincerely yours,
