J. D. Anderson - Manville

Workmen's Compensation

The mass filing of Workmen's Compensation claims at Manville is a problem of major importance.

There are many factors influencing the mass claim filing action. It is essential that we explore these areas and determine a plan of action that will retard the number of claims filed.

As a first step, please arrange a meeting with you, Lou Hemerda, Tom Bodnarchuk and myself present. H. M. Jackson and R. King may wish to participate in subsequent meetings.

Please arrange the initial meeting for 9:30 A.M. August 5th or 6th. Advise me which day is most convenient.

I suggest the agenda for the first meeting be a review of the number of cases in litigation, types of cases in general categories, such as, traumatic and occupational disease, claim handling procedures and case assignments to respondent's attorneys.
