Subject: PROTECTIVE CLOTHING - PLAN OF ACTION FOR COMPLIANCE

To comply with Dr. P. Kotin's request dated 10/18/76 to provide protective clothing for all employees who regularly handle raw asbestos we plan the following action:

To delay the issuance of protective clothing and hair covering to our employees so they may accumulate asbestos dust on their clothing and in their hair as is so evident in the attached photographs. What do you suppose an OSHA inspector would say to this condition much less Dr. P. Kotin or Dr. G. Wright?

We have delayed much much too long.

Recd from S. Page (Manville plant) August 1983
