"B - No Dust" Personnel

In confirmation of information discussed at the recent Industrial Hygiene meeting concerning the above-mentioned subject.

It is recommended that no "B - No Dust" personnel be employed in the following areas, which are considered to be "dusty" areas according to our last dust count survey.

Rigid Shingles (entire department)

Shipping & Receiving (receiving only)

Textile (cards, looms and mixing rooms)

Pipe Covering Department (butting and slitting saws)

Paper Department (jobs which require the dumping of dry raw products)

Waterproofing Department (the paint mixer)

T. R. Grainger, M.D.

cc - C. M. McCaw
K. W. Smith, M.D. - CHL, Box 91
