RE: Joseph Dias v. Johns-Manville

Dear Mr. Burnham:

In your letter of February 9, 1982, you inquire as to whether or not asbestos was used at Lompoc between 1932 and 1942 as reflected in our answers to interrogatories. According to my information these answers are probably incorrect. It appears that asbestos was used in only two products at Lompoc between 1951 and 1977.

I will be in Lompoc the week after next to do some discovery on these cases and will further pursue this matter at that time. I expect Mr. Cannady of your office to be with me.

Very truly yours,

George F. Evans,
Senior Attorney

GFE/llb

cc: Walter Cannady
