Medical Director
General Dynamics Corporation
One Rockefeller Plaza
New York, New York 10020

Dear John:

The trip to Groton last week was very enjoyable and we appreciate the excellent arrangements.

As Doctor Wright and I indicated, it would not appear that the manner in which you are fabricating the insulation materials creates any substantial asbestosis hazard.

It would certainly be in order, however, as you are planning, to have the work environs measured for fibre levels utilizing the membrane filter technique.

I will be glad to discuss our health research activities in greater detail with you at your convenience.

With warm personal regards,

Sincerely yours,

H. M. Jackson
Director of Industrial Relations
