Industrial Hygiene Manville
Memorandum of Meeting September 14

In Attendance: F. Ryan
M. F. Naylor
A. N. Pauly
J. P. Woodard
H. M. Jackson

1. Mr. Woodard presented a list which was a recapitulation of the five previous lists of special industrial hygiene cases.

2. It was agreed that Dr. Pauly would review the list and indicate, in the designated column, whether continued follow-up of that case should be made. The letter "D" would be shown for those who are to be dropped from the list; the letter "C" for those cases to be continued.

3. When the review has been completed, this list is to be forwarded to J. P. Woodard, Headquarters and will be re-typed to include only the cases designated by "C".

4. In Dr. Pauly's opinion, examination of these cases at two year intervals is adequate.

5. It was agreed that the special case list would be reviewed at two year intervals.

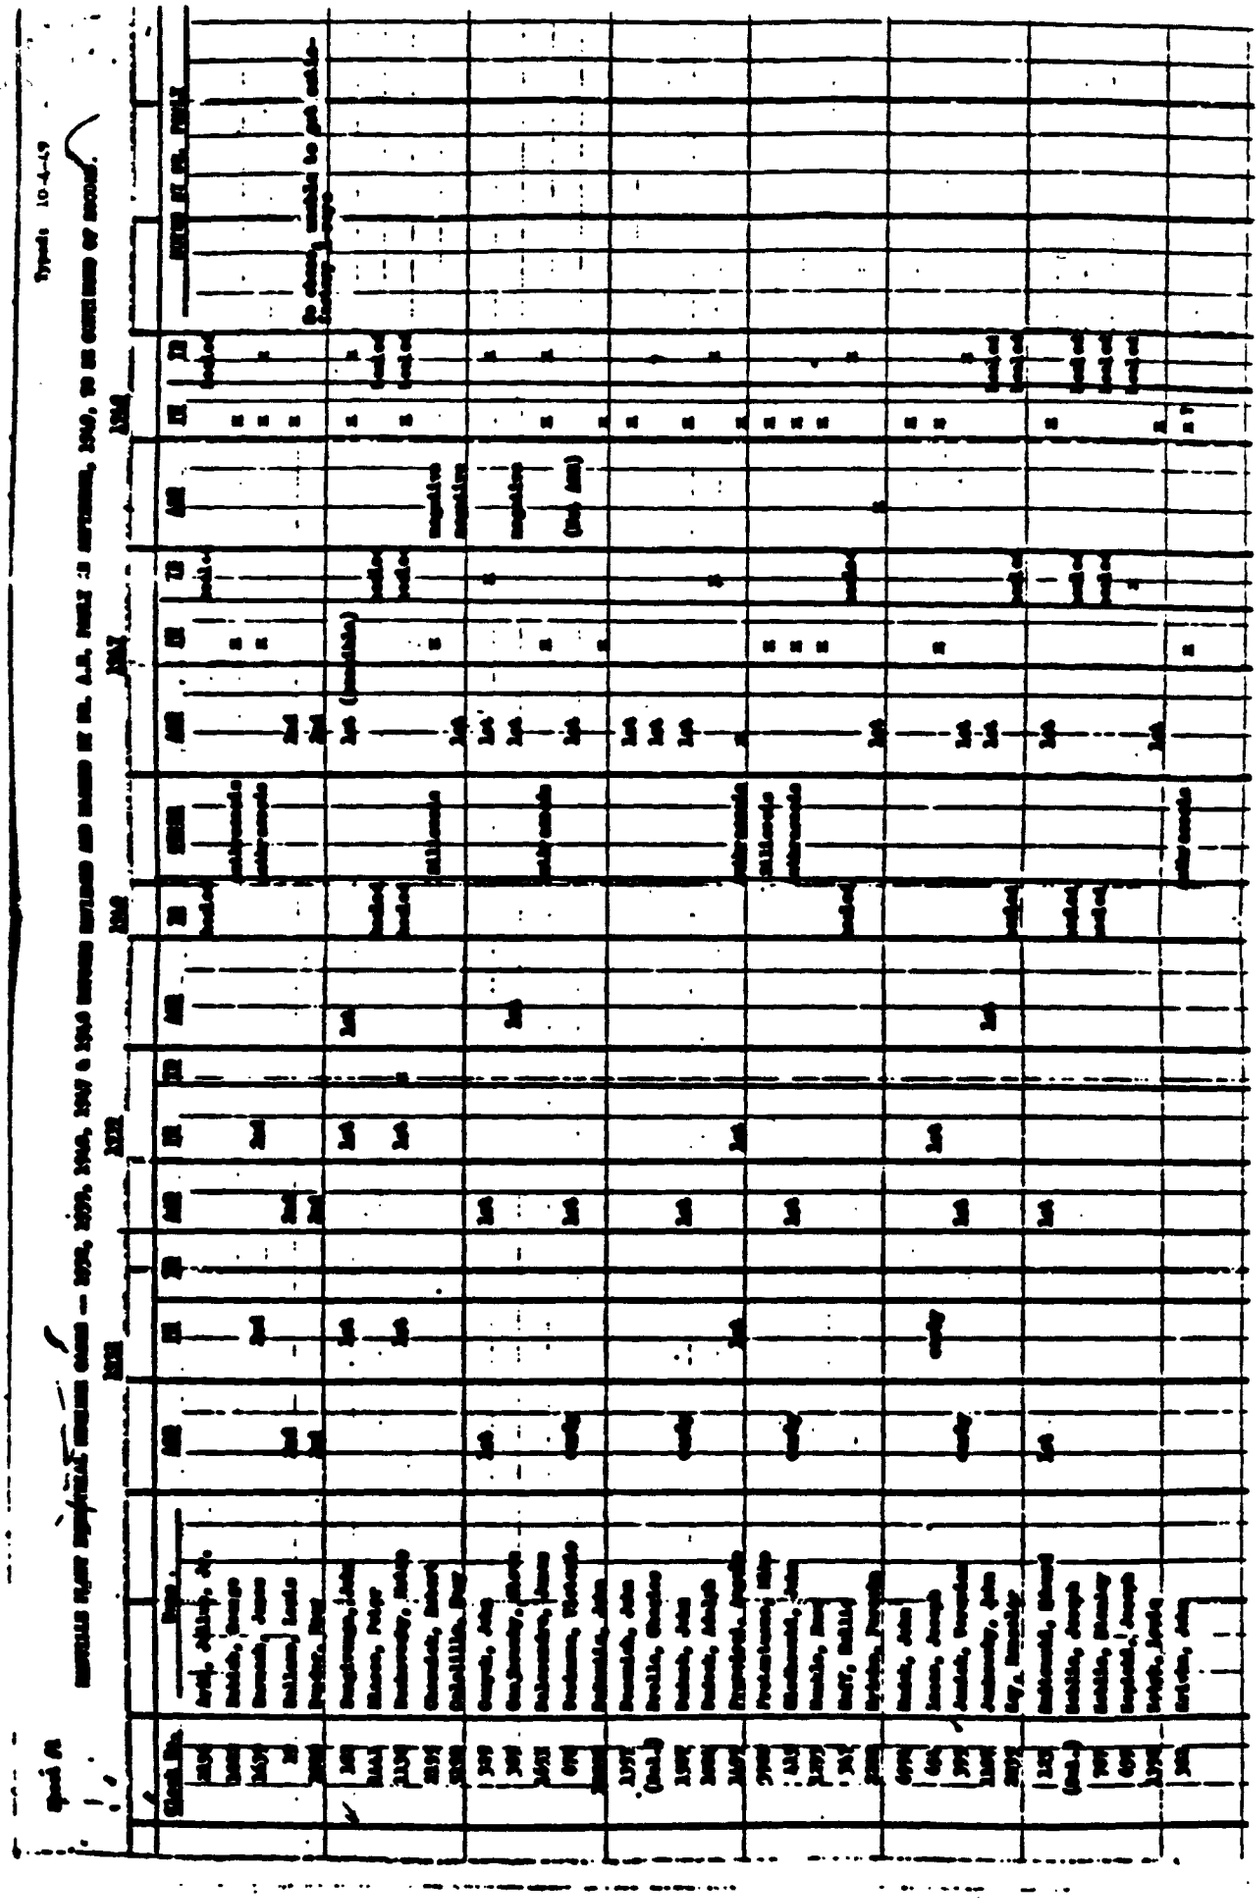

6. In Dr. Pauly's opinion, there are approximately ten cases which could be classified as "bad". The exposure in the Mixer Man job in the "H" and "I" Buildings will be eliminated with the completion of the bulk handling system.

7. Mr. Naylor pointed out that Stanley Reynolds was familiar with the desirability of transferring certain individuals and was constantly on the alert to effect satisfactory arrangements.

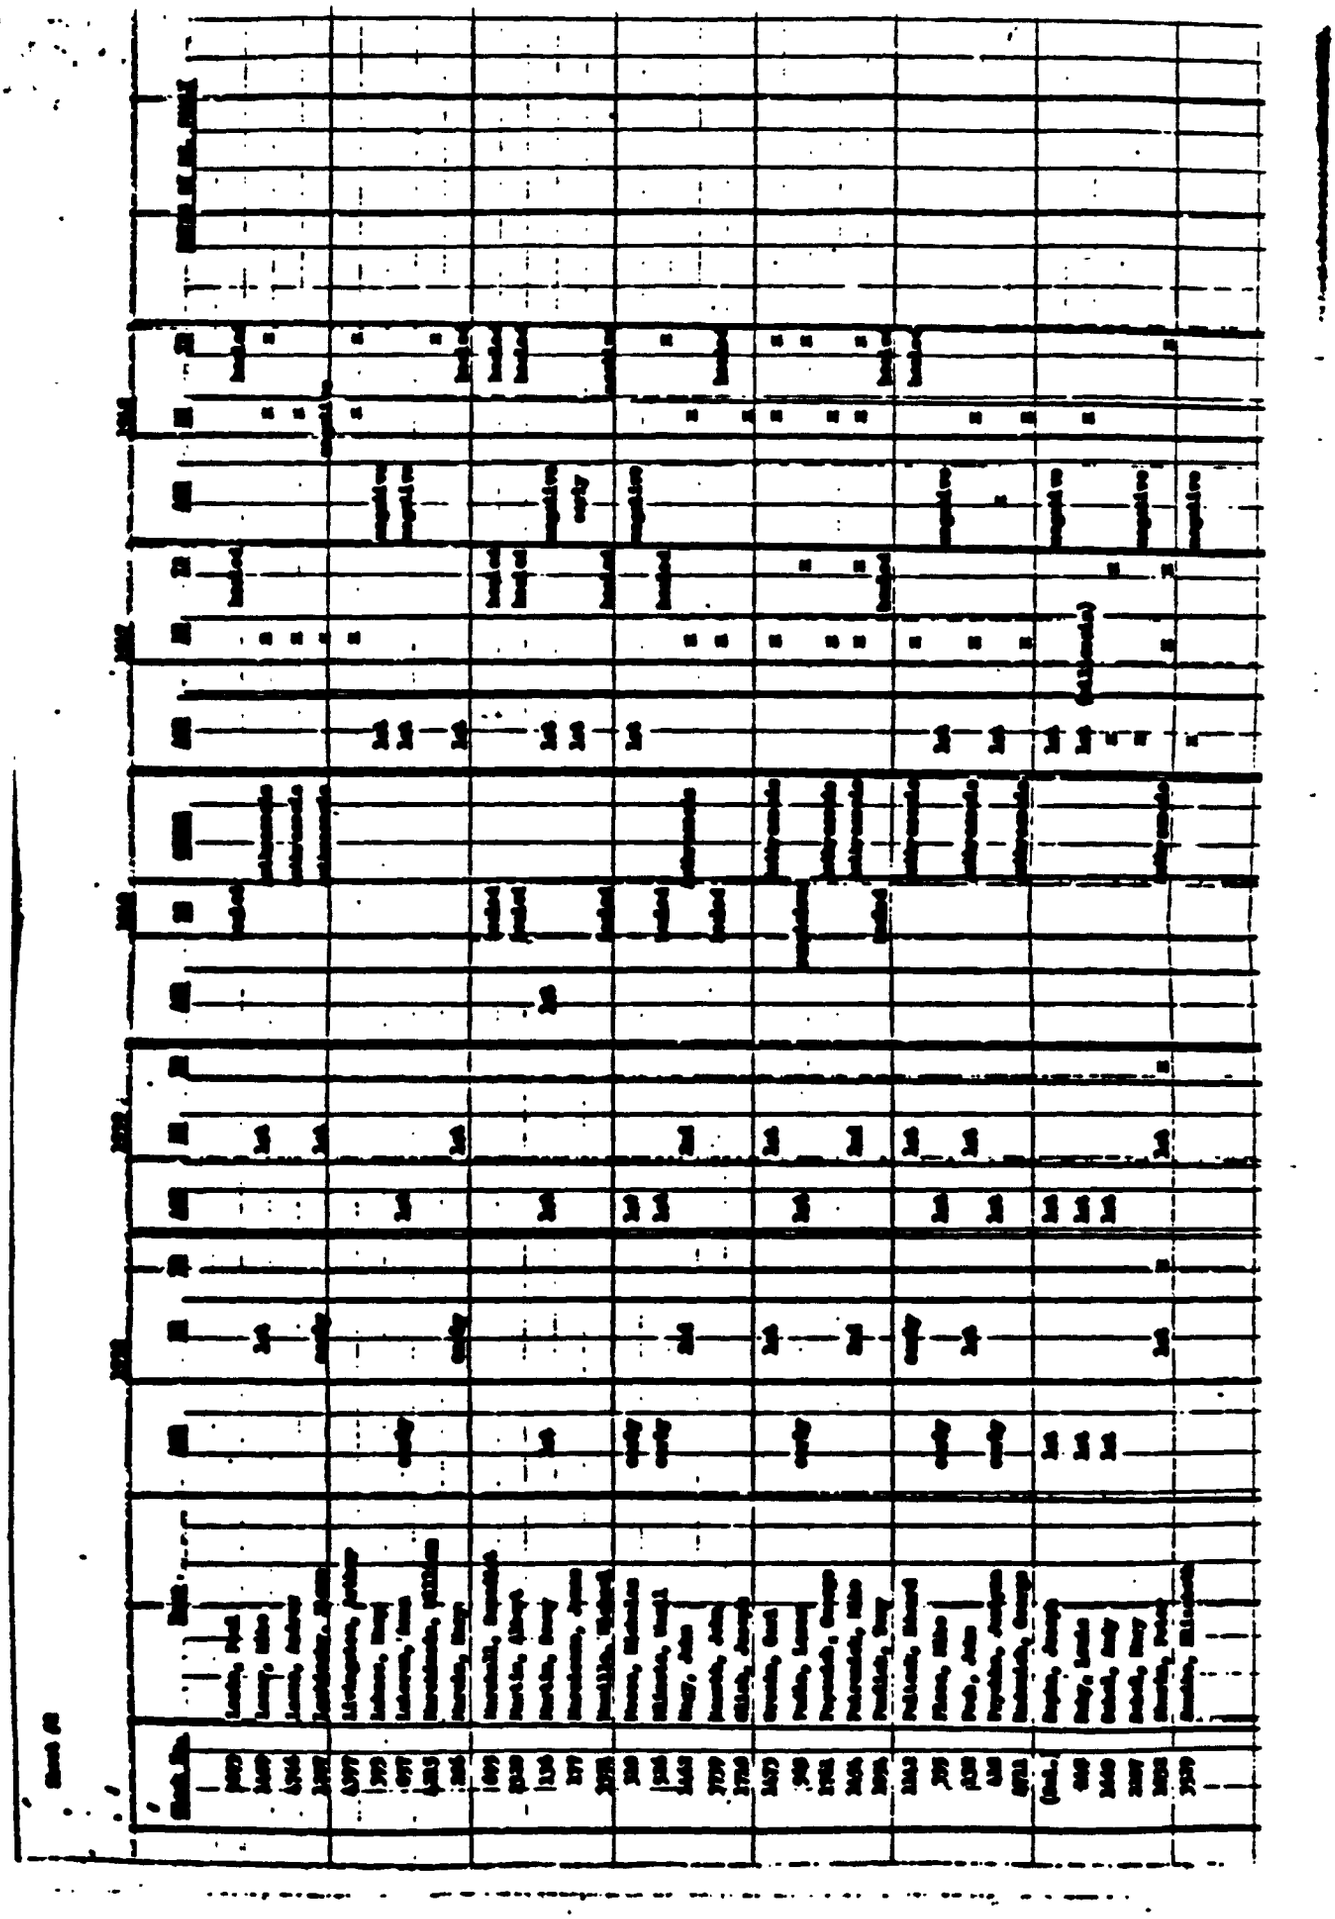

H. M. Jackson
