MEMORIAL HOSPITAL

York Avenue at 68th St.

New York, N.Y.

Telephone Regent 4-5500

June 25, 1940

Medical Department
Johns-Manville Company
Manville, New Jersey.

Re: Steve Kardos

Gentlemen:

This is to call to your attention the case of your employee Mr. Steve Kardos, of Manville, New Jersey, who has been a patient under observation at the clinic of this hospital since June 14, 1940.

He had a condition of his nasal passages and larynx believed to be due to avitaminosis. On liver diet and yeast his condition has improved considerably.

Mr. Kardos gives a history of having worked in your asbestos division for fourteen years, and our chest film, made June 20th, would seem to indicate the probability of pulmonary asbestosis. We thought it well to call this to your attention in case you should not know about it. We have not discussed this aspect of the case with the patient.

Very truly yours,

Lloyd F. Craver, M.D.
Attending Physician.
