FIBRE PACKAGING - PLANT SHIPMENTS
3 PLY BAGS - My letter dated February 14, 1968.

The instruction contained in subject letter, "Effective immediately, all shipments which have been packaged in 2 ply bags are to be 3 ply", is hereby cancelled.

We will return to the use of 2 ply bags except as qualified below.

Jeffrey to use 3 ply bags for Group III fibres.

Reeves to continue to use 3 ply bags - Munro type construction - because of cold weather conditions.

Coalinga to revert to packaging in effect previous to February 14, 1968.

J.R. Hutcheson
