J. D. Anderson - Workmen's Compensation and Occupational Diseases Costs
Manville

Tremendous concern has been registered by the Plant Managers over the escalation of the subject costs at this location. As discussed in the past, I am certain that you are well aware that the costs at this location have been increasing at an astronomical rate.

The Plant Managers are also concerned over the current accounting methods employed in assigning costs, specifically, in occupational diseases cases.

Since we have recently acquired two new Plant Managers at this location, I would appreciate your arranging a meeting to review these matters with our Plant Managers. They particularly would like to discuss their problems and to become informed as to what could be done to control and, hopefully, lessen the escalation of these costs.

John D. Anderson
