Dear Eric,

ADVOCATE

Your telex of December 22nd advising that a shipment of Advocate fibre had been received in Holland with the "caution" labels was very disappointing because we had no intention of delivering any fibre to you in this condition.

As you can well understand, this was caused only by an error which has been brought to the attention of our production people and I can assure you that stricter precautions will be taken in the future to avoid repetition of this mistake.

With kindest regards and Best Wishes for 1970,

Sincerely yours,

D. Poutiatine
