Herbert Miller

Dear Fred:

Pertaining to the above employee's claim, examination of our file indicates that Mr. H. M. Jackson did not get a copy of my letter of August 14 in answer to your letter of August 5.

I received a memorandum from Mr. Jackson on Dec. 23, 1952 and am quoting from Mr. Jackson's memo: "The x-rays have been reviewed. Dr. Smith concurs with Dr. DuBow's opinion that there is no evidence of occupational pulmonary disease, but rather the data indicates ordinary tracheobronchitis. In our opinion there is no evidence of occupational disease and nothing to substantiate the claim that Mr. Miller has indicated will be filed."

I would be interested to hear any comment by employee's attorneys and whether it is your opinion that a petition will be filed.

Very truly yours,

Benj. F. Stanton
