Attention: Benjamin F. Stanton, Esq.

In re Johns Manville ads. Herbert Miller

Gentlemen:

We have communicated the substance of your letter of August 14, 1952 in this matter to Mr. Mungle.

We have been advised by Mr. Mungle that Miller is suffering from a tracheo-bronchitis, aggravated by occupational inhalation.

For this reason we are interested in obtaining from you as soon as practicable, a complete report as to what your medical records show or what an examination by Dr. DuBow reveals as to any lung pathology in this employee.

We are further interested in a history of this man's employment with Johns Manville, showing particularly the departments in which he was employed and the dates during which he was employed in these departments. We are, of course, interested in knowing whether his work in any department exposed him to a lung hazard of any nature.

Further, we would appreciate your advising us as to the absences of this employee from work, the duration thereof, and the cause of each.

If you have any questions relative to this matter, we would appreciate your communicating with Mr. Fritz of this office.

Very truly yours,

Wharton, Hall, Stewart & Halpern
