Marinite Dust

Attached is a letter by V. B. Padham in which he is calling to our attention, a situation in which J-M may in the future have some responsibility.

I would appreciate your review of this letter and give me the benefit of your thinking in regard to the company liability.

It has been suggested by Mr. Flavin that possibly a statement could be made in our literature calling attention to the potential hazard in confined quarters.

T. H. Eaton

attach.
