Marinite Dust
Your letter Aug. 5 to K. W. Smith

Ken and I reviewed this matter with Messrs. W. G. Hoffer and H. M. Ball and concur in the recommendations made by Mr. Hoffer in his letter of July 29 to you.

The statement in the instruction book which will reach the job foreman and the man doing the actual work will place the desired information in the hands of those for whom it is intended and is most important.
