Mary Lukasiewics, Dept. 116 - Clock #366 August 25, 1954

ceased to be exposed in the course of employment with the employer to such occupational disease; provided, however, that in the event of death of an employee who has been paid compensation on account of a compensable occupational disease, a petition on behalf of dependents, as defined in section 34:15-13g of the Revised Statutes, shall be timely if filed within two years after the date of last payment to the employee notwithstanding such period of two years or any part thereof extends beyond the five-year period hereinabove set forth."

"A payment or agreement to pay by the insurance carrier shall, for the purpose of this section, be deemed a payment or agreement by the employer."

Due to the fact that this case is without precedent, I believe we should have the benefit of an interpretation of the Compensation Laws from professional legal counsel.
