Subject: GIBSON V. JM

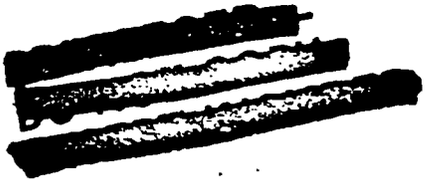

I discussed Interrogatory No. 14 with Bill Reitze. He has looked through a list of physicians which I previously compiled and has returned it to me.

He is concerned that we will have another "Kenneth Smith" situation on our hands especially at those plants where physicians were fired. He would like to discuss this with you.

There were so many errors in the information previously supplied to Mr. Ris that I hope he forwards the interrogatories to you before filing them. For instance, when Mr. Ris gets this list of plant physicians, its not going to match up with the list of plant operations which was given to him.

Attach.
