Re: OSHA Access to Employee Exposure and Medical Records Standard

Dear Mr. Martin:

Under the authority of the OSHA Access to Employee Exposure and Medical Records Standard 29 CFR 1910.20, the International Chemical Workers Union and its Local No. 255 hereby request the following:

1. (a) A list of all toxic substances and harmful physical agents, by chemical and trade name, that employees are potentially exposed to on the job.

   (b) Material safety data sheets on all the toxic substances and harmful physical agents that employees are potentially exposed to on the job.

2. (a) All biological monitoring data for toxic substances or harmful physical agents that employees are exposed to on the job.

   (b) All analyses of the above biological monitoring data.

3. (a) All industrial hygiene monitoring data and other environmental monitoring data for toxic substances or harmful physical agents that employees are exposed to on the job.

   (b) All analyses of the above industrial hygiene and environmental data.

4. (a) Results of all historical monitoring surveys, personal monitoring and industrial hygiene surveys. Which contaminants are monitored by the Company? What method and location of sampling was used (such as time-integrated, spot sample, personal, breathing zone, fixed location?) A sample protocol should be provided

the Union. How does the Company calibrate sampling the sampler? What is the analytical method, its sensitivity, and the internal method of calibration?

5. (a) All medical screening tests data because it is relevant to the health of employees exposed to toxic substances and harmful physical agents.

(b) All analyses of the above medical screening test data.

6. (a) All analyses of medical records.

The standard mandates that the employer shall assure that access is provided in fifteen (15) days or less after the request for access is made. The standard also provides that a copy of records will be provided without cost to the employee or representative. An OSHA complaint will be filed by the local union if the company fails to comply with the standard.

Yours truly,

Adrian S. Bedard
Vice-President and Health
& Safety Committee Chairman
