THE SARANAC LABORATORY
FOR THE STUDY OF TUBERCULOSIS
OF THE EDWARD L. TRUDEAU FOUNDATION
SARANAC LAKE, N.Y.

January 12, 1944

Mr. Vandiver Brown
Johns-Manville Corporation
22 East 40th Street
New York, New York

Dear Mr. Brown:

I hope you will pardon my slip in mentioning Manheim when I meant to say Manville. I had in mind to ask to see the films from your plant when I wrote. I think also that it would be well to ask Mr. Simpson whether we might have the privilege of examining those of his company as well.

What I am hoping to accomplish in the proposed section on X-ray is to discuss the question of progression of the disease as observed in films taken over considerable periods of time. Neither the Public Health Service nor anyone else has done this and it would be a very valuable contribution.

For this reason I would like to see the whole series of as many men as possible including any that may have left the Company's employ by virtue of ill health or for other reasons.

Sincerely yours,

Leroy U. Gardner, M. D.
Director
