Dr. R. H. Stevenson

Review of C.J-M X-Ray Films

I have noted letter from Mr. Gardner to yourself dated May 17th, and as stated verbally I can see no reason why Mr. Gardner and Mr. Vertal should not be invited to pay us a visit and review the films we have, and I assume that you have already informed Mr. Gardner accordingly, with the proviso that the visit not take place during the week of June 5th.

For the information of parties below I am taking the liberty of presenting copy of Mr. Gardner's letter so that they will be fully informed as to what is going on.

Our main interest should be in any favorable findings which Mr. Gardner will be able to present in the best he is proposing to write.

H. K. Sherry
