September 11, 1947.

Dr. Paul Cartier,
Thetford Mines,
Que.

Dear Paul:-

Re: Saranac Symposium

I have just received the program for the Conference on Industrial Health and it promises to be so instructive that I feel I shall stay in Montreal instead of going to Saranac with you.

My position is not so fortunate as yours, as I must keep up with all the aspects of safety and treatment of accidents, instead of devoting my time to one phase of health. In that way I cannot do as good a job as you are doing, but that is what J-M wants. So I feel that the conference in Montreal will be more instructive for me than the Saranac Symposium.

Please remember me to your charming wife. I hope to have the pleasure of seeing you all again soon.

Sincerely,

KWS/h.m.

Kenneth W. Smith, M.D.
