HAZARDOUS LABELS

Advise all of those involved under your responsibility that any inquiries from customers or others concerning the health hazards involved with cutting, machining or using our products containing asbestos and/or silica should be forwared to C. L. Sheckler through DHQ for reply.

In the future all letters, bulletins, notices or other information pertaining to questions of health problems should be reviewed by C. L. Sheckler's group before they are released.

In view of the highly sensitive atmosphere concerning these problems all concerned must take every precaution necessary to protect the company.

M. W. Burleson
