M. D. Webb - Joffrey

PROKO
YOUR REPORT JULY 24TH

We were interested to note the plan to ship 50 pounds stapped and bags of 7SF62 to all plants of Proko, and we assume that Morton Webb is fully conversant with this picture.

We are not happy with the dust situation you describe at Proko and we can conclude that they will encounter problems in the future. If, however, the asbestos fiber shipments arrive in good shape, free from damage and can be handled within the OSHA standards our problems should be minimal. It will be important for you to make sure that this condition prevails.
