H. M. Jackson - DHQ

J. F. Leahy

Leahy worked Monday through Thursday. He goes to see Dr. East each day for "shots" and consultation. Thursday evening he had several coughing spells. He was home in bed all day Friday. Dr. East visited him at 5 P.M. I called Leahy this noon and he answered the phone. He is expecting to be at work Monday. Mrs. Leahy is becoming more upset over Jack's poor progress. She called me yesterday afternoon and poured out her troubles. She wants to know the truth - can the Doctors help Jack or not? Dr. East feels that nothing can be done except to try to keep Jack comfortable. He probably gets more "hell" from Mrs. Leahy than I do. Dr. East would like to have any suggestions that you or Dr. Lanza may have to offer.

I will try to keep Jack on his feet as long as possible and say nothing, except to keep up his confidence. Have you any further suggestions?
