P. W. Chapman - Billerica

Mass. Dept. of Labor & Industries
Your Letter of October 13

I concur with your recommendation that you provide the information Dr. Brugsch has requested under items 1 and 2 of your above letter, and also with your observation that it is to our advantage to provide him with whatever data he needs within legal limits.

Within the last year, Dr. Davison has recommended and the two locations involved have obtained pulmonary function evaluation equipment. By copy of this letter, I am suggesting that Dr. Davison review the Billerica situation and advise you directly of the type of equipment that would be appropriate for including this aspect of periodic examination procedures in your regular routines.

It is our opinion that this type of measurement can contribute to the physical evaluation procedures, giving indications not available through X-rays alone.

I have also suggested to Dr. Davison that as soon as he is able to schedule a trip to the Northeast, he arrange to meet with Dr. Brugsch to establish a professional rapport.

H. Hugh Jackson
