Manager
Waukegan Factory

SURVEY OF GRETNA PLANT
By Metropolitan Life Ins. Co.

In the recent survey of Gretna Plant by the Industrial Health Section of the Metropolitan Life Insurance Co., they found a rather heavy dust count at the shingle mixers and recommend that this condition be improved. When I was at Waukegan this week, I noticed that your dust-collecting equipment at the mixers was doing a most excellent job, and I would therefore appreciate it if you would send to Mr. Murphy, at Gretna, blue prints and details of the Waukegan layout, and he can then determine whether he has sufficient data to put in his own equipment or whether he would like to have Mr. Renton work it up for him.

S. A. WILLIAMS
Vice President

cc. Mr. D. C. Renton
Manville, N. J.
