Subject: WARNING LABELS

I have received a copy of your letter of March 29 to the Directors of the QAMA, advising them that we will henceforth print the warning label on our bags in six languages.

I wish to suggest that you consider replacing the label in Italian with a label in Dutch. Today, Holland is one of the countries with the strictest controls on all types of pollution while we can certainly not say the same about Italy.

Furthermore, in 1974, JM shipped 870 tons of asbestos to Italy and 11,730 tons to Holland. In 1975, we shipped 3,450 tons to Italy against 16,180 tons to Holland. In 1976, we estimate that Van Gelder, alone, will buy between 15,000 and 18,000 tons from us.

DIMITRI:

PLEASE STRAIGHTEN THIS OUT WITH N.W.H. — THERE IS ONLY SO MUCH ROOM ON A BAG.
