Subject: NASHUA, N.H. - EPA CASE DEVELOPMENT PLAN

We have received a copy of the EPA Case Development Plan through a source which has requested that we keep our source confidential. Accordingly, I am limiting distribution of the plan to each of you and would request that no further copies be generated without my knowledge. Also, I would appreciate our minimizing any public discussion of the fact that we have a copy of this plan.

After review, if anyone believes we should take any affirmative steps as a result of material contained in the plan, I would welcome the opportunity to discuss that action with you.
