Dust Conditions in "A" Building

We include a copy of a letter by Mr. Macko, President of the local Union, addressed to our Mr. Naylor relative to dust conditions in our Textile building.

Mr. Naylor will, of course, answer Mr. Macko's letter covering the five complaints as listed.

We also include minutes of a meeting held here about the dust conditions in the Textile building and you will note that Mr. Macko's complaints are covered by number therein as he listed them.

It is planned to have further dust counts made as soon as the proposed improvements in dust handling facilities are completed.

We will be pleased to furnish any further information required.

H. J. O'Brien
