January 27, 1939.

Duane E. Minard, Esq.,
Hobart, Minard & Cooper,
1180 Raymond Boulevard,
Newark, New Jersey.

Dear Mr. Minard:

Now that the New Jersey Legislature is in session I wish to call your attention once more to the fact that we are interested in following any bills which may be submitted looking to the inclusion of "silicosis", "asbestosis" or "pneumoconiosis" on the list of compensable occupational diseases.

I believe I told you and Mr. Cooper, when you were in my office last December, that Mr. Hobart had been accustomed to keeping us posted on bills of this character and their progress in committee.

Very truly yours,

Vandiver Brown,
General Attorney.
