5004

March 31, 1947

Mr. Manfred Bowditch,
Field Director,
Saranac Laboratories,
Saranac Lake, N. Y.

Dear Mr. Bowditch:

Receipt is acknowledged of yours of March 24th. I had not reviewed Dr. Gardner's "Outline of Proposed Monograph on Asbestosis" prior to writing you on March 21st. I recall he had made some reference to cancer but I did not recall that certain of the animals had revealed such a marked tendency to contract it.

Sincerely yours,

Vandiver Brown,
Secretary.

VB:y
