Dr. W. J. McConnell,
Assistant Medical Director,
Metropolitan Life Insurance Company,
1 Madison Avenue,
New York, N. Y.

Re: X-rays of Employees -
Jarratt, Virginia.

Dear Dr. McConnell:

The taking of the X-rays of the employees at our new Jarratt, Virginia, plant has been completed. These are the X-rays on paper film which I discussed with you a short time ago and which you generously offered to interpret for us if we could wait for a month or six weeks.

I understand a reading device is required for interpreting this type of film and we will see that you are provided with this equipment at the same time the films are delivered. Since it must be borrowed from the concern which took the X-rays, I shall appreciate your letting me know the approximate date you will find it convenient to examine this batch of pictures.

Sincerely yours,

Vandiver Brown,
General Attorney.
