Subject REDWOOD CITY CLINIC

This will confirm our telephone conversation several days ago regarding your engaging the Redwood City Clinic for medical services at the Pittsburg facility.

A review of the information that you sent us on the Redwood City Clinic seems to indicate that they propose to do an excellent job in filling our medical needs at Pittsburg.

As I mentioned to you, we should note that they are going above and beyond what our official medical policy requires. It also should be noted that their prices are somewhat higher than what we customarily pay for lesser services.

I concur with your thinking that because of the history of our medical program at Pittsburg and the possible litigation that can result, we would be wise to furnish the very best medical care that is possible.

W. B. Reitze
