CAUTION LABELS

Confirming my teletype of January 13, Dr. I.W. Smith has advised that it is not necessary to use the Caution Label on products containing asbestos in Canada. Of the products listed in E.C. Lindstrom's letter of October 15, I believe that we import only Superex and Sup Cement. Will you kindly make certain that this marking is not on a Industrial Insulation product shipped out of Waukegan Plant into Ca
