CAUTION LABELS

Attached is a copy of a letter from W. E. Hodgson, Toronto to S. Lane regarding caution labels on our Superex & Superex cement products. This letter is self-explanatory. The teletype copy which you took back to New York after your recent visit to Canada. As you know, complying with this request would be quite difficult since the caution labels are printed on the Superex cartons and therefore would have to be obliterated in some fashion.

Please advise if we are to comply with this on future shipments into Canada.
