(30)

June 18, 1943.

Mr. S. Simpson, President,
Raybestos-Manhattan, Inc.,
Bridgeport, Conn.

Dear Mr. Simpson:

The attached copy of letter written by the Northwest Magnesia Association to the Department of Labor & Industries of the State of Washington, has been sent us apparently by the Secretary of the Association, Elliott DeForest, without any comment whatever, and in the envelope of the Asbestos Supply Company, First Ave. at Jackson, Seattle, Washington. Mr. DeForest is connected with the Asbestos Supply Company.

There does not seem to be anything we can do about it under the circumstances, and we are passing it along to you thinking it might interest you generally, and perhaps you might like to contact Mr. DeForest on the subject.

If you would prefer that the matter be handled thru us, we would be glad to write Mr. DeForest at your direction; otherwise you need not returnthe letter.

Very truly yours,
"ASBESTOS"
A. S. Rossiter,
Editor.
