Recent inquiry of the Travelers Insurance Company indicates that a Hearing was held, wherein other defendants were joined. A tentative agreement for a settlement was reached, however, further details as to various contributions are still being worked out. The Travelers have promised to advise us when this has been finalized. The tentative settlement agreement is for $13,500.

The above is for your information and file.

Gentlemen:

In response to the request of Mr. Schiedt of Armstrong Cork Company and the telephone request of Mr. Bilchak, we enclose a set of photostats covering the earnings record of Mr. McCarroll with Armstrong Cork Company from 1944 through 1956, with the exception of the two years, 1947 and 1948. Mr. McCarroll was not in Armstrong's employ during the years 1947 and 1948.

Should you have further questions that we might possibly answer, do not hesitate to contact this office.

#56-LA-176-684

In reply to your August 24 letter, we list what we believe to be the Standard Accident Insurance Company policy numbers covering Mr. McCarrell's employment prior to 1952:

1944	AZ-561247
1945	AZ-574904
1946	AZ-590450
1947	AZ-609225
1948	AZ-639900
1949	AZ-663400
1950	AZ-688800
1951	AZ-718480

The enclosed Thermo-Fax of our August 18 letter to Mr. McDonald of Standard will give you the names of the men you might wish to contact. We sent Mr. Ross a similar set of Photostats, anticipating your future request. If you have not as yet received them, we suggest you contact Mr. Ross, manager of the Los Angeles office of AC&S, immediately.

We agree Social Security records do not necessarily give the whole story. However, due to the fact that the pipe covering mechanics often work for a number of employers during the course of a year, one might conceivably accumulate his entire earnings for a particular year as each employer is required to report the first $3,000 paid up to and including the year 1950, $3,600 up to and including 1954, and $4,200 up to and including 1958.

We trust this information will help in apportionment proceedings.

Attention: R. C. Schiedt
Insurance Department

Gentlemen:

At a recent Hearing on the above captioned matter a question of coverage for workmen's compensation insurance by Standard Accident Insurance Company was raised. Our California Inspection Rating Bureau does not have any records with regard to coverage by Standard Accident for Armstrong Cork Company; therefore, we have been asked to determine if you could supply us with the policy numbers for the periods during which Standard Accident carried your workmen's compensation insurance in California.

In addition to the above an attempt was made to determine apportionment between the various defendants based upon Social Security Records. However, this was not possible due to the fact that the amounts from any given employer in one year are only recorded up to a maximum of $3,600.00. We have been asked therefore, to ascertain if possible, relative to the periods of employment of Mr. McCarrell, in terms of days ~~and~~ gross earnings during those periods of employment.

Thank you for your anticipated cooperation.

Very truly yours

Dear Mr. McDonald:

At the phone request of Mr. C. B. Litzinger of the Standard Accident Insurance Company, Pittsburgh office, we enclose Photostats of the earnings record of E. O. McCarroll while in the employ of Armstrong Cork Company from 1944 to 1956 inclusive. He was not in Armstrong's employ during the years 1947 and 1948.

Standard Accident was the insurance carrier up to and including the year 1951 after which Travelers took over. Prior to May 10, 1949, the majority of McCarroll's employment was with other employers as the records will indicate.

If you have any questions regarding working conditions, we suggest you contact Mr. R. B. Ross, District Manager of the Los Angeles office of Armstrong Contracting and Supply Corporation, a wholly-owned subsidiary of Armstrong Cork Company.

Dear Mr. Ross:

Subject: E. O. McCarroll

We enclose a similar set of photostats which was requested by Standard Accident Insurance Company last week.

Mr. Joseph Bilchek of Travelers Los Angeles office requested in January of this year some general information about McCarroll's employment record with Armstrong, but we believe he should have the enclosed photostats. In the second retrospective rating of our 1956 policy, Travelers established a $20,000 reserve on this claim, which resulted in Armstrong depositing about $23,354 with Travelers.

Since Travelers Armstrong coverage only included the years 1952 to 1956 inclusive, prior insurance companies should be involved when apportionment proceedings are initiated by Travelers if it was the last insurance carrier involved.

We suggest you pass this idea along to Travelers Los Angeles office at the time you turn over McCarroll's employment records.

Very truly yours,

In reply to your February 25 letter, we are listing three locations in or near Los Angeles where Travelers can inspect our insulating jobs:

B. F. Goodrich Company
5400 East Olympic Boulevard
Los Angeles, California

Southern California Edison Company
Redondo Steam Station
Plant 2, Unit 6
Redondo Beach, California

Douglas Aircraft Company
DC-8 Building
Long Beach, California

Our records indicate Mr. McCarrel started working for Armstrong in 1944. However, between 1944 and 1949, a period of six years, he only worked a total of 67 weeks, indicating that he had other employers. From 1950 on, he worked quite regularly for Armstrong.

These asbestosis claims are on the increase, and we are wondering if the manufacturers of this high temperature insulation which we use could be of some assistance in the defense of these claims.

Claim #: B-8289902
Date of Accident: 11/14/56

Dear Sir:

The above claim involves an employee by the name of E. O. McCarrell. We understand that he has acquired a lung condition which has been attributed to his handling of various asbestos materials while in the employe of the Armstrong Cork Company. This man has been with our assured since approximately ~~1954~~ although we understand he does estimate that possibly for a total of one year he was employed by other insulating companies.

We understand that recently Mr. McCarrell had coughing seizures and of late the coughing became so severe that it caused it him to be sick to his stomach. On or about November 14, 1956, we understand that he was examined by a doctor and a claim was reported to our claim department because of the occupational disease factor. At the present time he is unable to work and has to conserve his strength as much as possible.

Our claim department has set up an estimate of $6600.00 on this claim.

This is to advise you that our engineering department is planning to make a survy of an insulating job currently in operation in the vicinity of Los Angeles, California. This way it is felt that we will then be able develope recommendations or provide you with sufficient information so that recommendations might be developed wich will prevent or minimize this exposure.

As soon as we have anything future for you in this matter we will submit our findings to you.

Very truly yours,

T. F. Bryant,

In reply to your letter of January 20, this man was employed as a building mechanic by Armstrong Cork Company for the first time in 1944.

Prior to 1952, Standard Accident Insurance Company was Armstrong Cork Company's insurance carrier.

However, these building mechanics often worked for more than one employer during the course of a year. In fact, our records indicate McCarrell had no employment with Armstrong during 1947 and 1948.

Gentlemen:

We are currently processing a Workmen's Compensation claim on a former employee before the Industrial Accident Commission here in California. It is necessary for us to know the name and periods of coverage of your Workmen's Compensation carrier for the period January 1, 1944 to January 1, 1952. It is our understanding that one of your prior insurance carriers was Standard Accident Insurance Company written through an agent in Pittsburgh, Pennsylvania.

This information has been requested by our attorneys handling this claim. Therefore, any preferred attention you can devote thereto will be greatly appreciated.

D/A November 14, 1956

We requested a status report from the Travelers on the above case and we quote from their letter of June 20th, 1958 as follows:

"This case is becoming very complicated and costly,-due to the advance state of asbestosis.

"The latest reserves set up on this case is temporary total disability $4,000; permanent partial disability $7500; medical $8500.00 and expense $100.

"The man is disabled and we believe will be so indefinitely, with constant medical treatment. We are endeavoring to join numerous other defendant employers, in order to show that there was other exposure to asbestosis besides the exposure at the Armstrong Cork Company.

"We have filed an application for hearing, but have not as yet received a setting date."

The above is for your information and file.

Mr. James E. Fannon
Alexander & Alexander, Inc.
2225 North Charles Street
Baltimore 18, Md.

Dear Jim:

Subject: E. O. McCarrel
W. C. Accident 11/14/56
B-8259902 - Maryland

In reply to your February 25 letter, we are listing three locations in or near Los Angeles where Travelers can inspect our insulating jobs:

B. F. Goodrich Company
5400 East Olympic Boulevard
Los Angeles, California

Southern California Edison Company
Redondo Steam Station
Plant 2, Unit 6
Redondo Beach, California

Douglas Aircraft Company
DC-8 Building
Long Beach, California

Our records indicate Mr. McCarrel started working for Armstrong in 1944. However, between 1944 and 1949, a period of six years, he only worked a total of 67 weeks, indicating that he had other employers. From 1950 on, he worked quite regularly for Armstrong.

These asbestosis claims are on the increase, and we are wondering if the manufacturers of this high temperature insulation which we use could be of some assistance in the defense of these claims.

Very truly yours,

R. C. Schiedt, Jr.
