Corporate Bridgeport

Mr. I. H. Weaver - Manheim

July 31, 1972

It has been brought to my attention that many of our textile products are being shipped to customers without proper labeling as dictated by OSHA regulations.

Each of our divisions has full and complete instructions and interpretations of these labeling laws. Consequently, there should be no reason for us to be in violation of OSHA.

Will you please check each of the textile manufacturing plants to be sure they are conforming with labeling regulations.

Please send me a report no later than August 15 as to where we may be in violation of OSHA as far as labeling is concerned, and what our immediate plans are to rectify the situation.

CC: Messrs. J. H. Marsh
