Dear Mr. Weaver:

A review of our records indicates Raybestos Manhattan, Inc. joined IHF in 1937. The corporate membership was dropped in 1957. The General Asbestos and Rubber Division belonged to the Foundation from 1968 until mid-year 1975 when corporate membership was once again reinstated.

An announcement of this year's physicians courses is enclosed for your information. One will eventually find its way to your new medical director through the mailings, but you may wish to pass this one along.

We are pleased to have Raybestos Manhattan, Inc. as one of our members, and hope that we may continue to provide occupational health services to your company for many years.

Sincerely yours,

SJC:rh
