Manheim

Mr. J. H. Marsh

November 4, 1974

Dr. Schepers' Comments at 1965 Conference on
Biological Action of Asbestos

I found the attached rather interesting. After reviewing it, I can see several possibilities why J-M might wish to denigrate Dr. Schepers.

I tried to obtain a complete copy of these annuals when I was in New York last week, but was unable to do so. However, I placed a prepaid order for a copy with Scholarly Re prints and was promised shipment by the end of the week.

You may wish to review this further during your visit November 12 or 13.
