February 13, 1956

Mr. R. H. Horst, Purchasing Dept.
Owens-Illinois Glass Co.
Toledo, Ohio

Dear Mr. Horst:

This will acknowledge and thank you for your order K-104 dated February 7th for 25 tons SW Amosite.

The first 10-ton lot went forward from our Jersey City Warehouse on February 8th.

The remaining 15 tons will come forward from Africa in approximately six weeks.

As explained to you over the phone, we have had to revise our prices on Amosite generally to reflect increased costs from Africa and also some increases in our warehousing charges in this country. The current price on SW f.o.b. warehouse Jersey City is $145. per ton and the price for SW f.o.b. dock New York or Philadelphia is $132. per ton.

We propose to bill your order K-104 accordingly and trust that will be satisfactory to you.

We are finding that SW grade is becoming increasingly difficult to obtain and probably will continue this way for the balance of 1956. Therefore, if you will keep us advised of your requirements as much in advance as possible, it will be helpful to us in trying to give you the best possible service.

With all good wishes.

Sincerely,

NORTH AMERICAN ASBESTOS CORPORATION
