March 21, 1949

Mr. W.G. Hazard
Owens-Illinois Glass Company
Toledo, Ohio

Dear Bill:

Herewith is the Saranac report which I read with interest. As I said the other day, there would be no point in having us "check" their findings. I do think, however, that a comparative study of the test dust and plant dust would be helpful and instructive.

Sincerely yours,

Theodore F. Hatch
Research Director
