Attention of: Mr. W. C. Taylor - Tech. Center

CC Mr. E. C. Shuman - 9

Subject:

Administrative Division
General Offices
Toledo 1, Ohio

In the attached envelope we are sending you five samples received from North American Asbestos Corporation. One I am particularly interested in is Grade G Amosite of which there will be 100 to 150 tons available in June. As you know, our inventory is short on both AW and SW grades Amosite. Is there any possibility of Grade G Amosite replacing either one of these grades?

Listed below are the samples and prices:

Type	Price	F.o.b. Shipping Point
Grade G	$145.00 per ton	Philadelphia
Grade AXD #3	$275.00 per ton	Globe, Arizona
Grade LSD #3	$275.00 per ton	Globe, Arizona
Grade BMS-F	$210.00 per ton	Globe, Arizona
Grade LSM-F	$190.00 per ton	Globe, Arizona

I do not think we have any interest in the Chrysotile but am sending it along for your observation.

W. C. England
