OFFICE MEMORANDUM

Date May 21, 1954

To Mr. W. E. Perkins

Re New Jersey Department of Labor Factory Inspection

This is in connection with your office memorandum of May 12 relative to items which required attention before June 7 so that the Labor Department Inspector will note we have made the corrections recommended.

Items 5 and 6 have been taken care of; and we are working on the guard required on our wire straightening machine. This should be completed within the next day or so.
