Mr. E, H. Jeffords, Gen. Mgr.

DUST COLLECTING

Dear Mr. Jeffords:

The dust samples referred to in your July 29th letter were duly received. We enclose for your information the report made to us by our Laboratory on these samples. The division between asbestos and cotton checks well with those indicated in your own letter.

As Mr. Barrier, to whom your letter of July 29th is addressed, is expected in this office early next week we are holding your letter and copy of the tests for his further comment, believing that the two or three days delay is justified and tolerable.

Very truly yours,

ARKWRIGHT MUTUAL FIRE INSURANCE CO.

Carl G. Richmond, Engineer
