Bridgeport, Conn.

Dear Mr. Simpson:

You may be interested to learn that Dr. Dorset of the North Carolina State Industrial Commission has sent out an SOS to our Dr. Sampson, roentgenologist at Trudeau Sanatorium, for help in the diagnosis of 70-odd cases of alleged asbestosis. He apparently is bewildered by the medical testimony which he has heard and wired Dr. Sampson and Dr. Brumfiel, clinical consultant to this laboratory, to come down. They are leaving tonight and will make every effort to establish some sort of order in this diagnostic puzzel.

Sincerely yours,

Leroy U. Gardner, M.D.
Director
