November 11, 1937

Mr. Robert M. Brown
Chemical Engineer
State Board of Health
Columbia, S. C.

Dear Mr. Brown:

I am just in receipt of yours of the 10th, along with which you enclosed a copy of the report of the dust study which you made in the Twisting Department of our Plant last week.

I have read this over very carefully, and wish to congratulate you on the manner in which this report has been prepared, which sets out the facts very plainly.

I wish to assure you that I, together with others who are associated with me at this Plant, greatly appreciate the interest which you and other members of the State Board of Health are showing in assisting us in taking precautions to avoid any possible trouble, and we also appreciate your having advised that you will permit us to call on you on future occasions to make further examinations for us, and we expect to take advantage of your kind offer.

Yours very truly,

E. H. Jeffords
General Manager

GENERAL ASBESTOS & RUBBER DIVISION
